|  | Vulnerable<br>Structures | None     | None   | None  | Light    | Moderate | Mod./Heavy  | Heavy      | V. Heavy | V. Heavy |

<sup>\*</sup>Estimated exposure only includes population within the map area.

### Population Exposure

population per 1 sq. km from Landscan

#### PAGER content is automatically generated, and only considers losses due to structural damage. Limitations of input data, shaking estimates, and loss models may add uncertainty. https://earthquake.usgs.gov/earthquakes/eventpage/us6000i1ms#pager

#### **Structures**

Overall, the population in this region resides in structures that are highly vulnerable to earthquake shaking, though some resistant structures exist. The predominant vulnerable building types are unknown/miscellaneous types and wood construction.

### **Historical Earthquakes**

| Date<br>(UTC) | Dist.<br>(km) | Mag. | Max<br>MMI(#) | Shaking<br>Deaths |
|---------------|---------------|------|---------------|-------------------|
| 1981-02-      | . ,           |      | V(5k)         |                   |
| 1999-08-      | 22 245        | 6.5  | IX(2k)        | -                 |
| 2002-01-      | 02 123        | 7.2  | VIII(28k)     | 0                 |

Recent earthquakes in this area have caused secondary hazards such as landslides that might have contributed to losses.

### **Selected City Exposure**

from GeoNames org

| nom deortames.org |           |            |  |  |
|-------------------|-----------|------------|--|--|
| MMI               | City      | Population |  |  |
| IV                | Isangel   | 1k         |  |  |
| IV                | Port-Vila | 36k        |  |  |

bold cities appear on map.
